## Product data sheet

Product range	Mobile paraffin heaters
Product line	Wick type
Brand	ZIBRO made by Toyotomi
Model	RC – 32
Color	New Stainless + Black N1.25
EAN / No. Article	4963505711375

## Technical specification

Burner type	Double Clean	
Heating Capacity	kW	3.20
Suitable surface	m <sup>2</sup>	22 - 48
Suitable volume	m <sup>3</sup>	55 – 120
Energy Efficiency Class	A	
Energy Efficiency Index	90,0%	
Useful energy efficiency	100%	
Fuel consumption	Ltr/hr	0,333
	g/hr	267
Tank capacity	Ltr	4,5
Burning time tank	hr	13,5
Wick height	mm	4 – 9
Wick type	Type O	
Battery type (not included)	"C" size x 4	
Dimensions	WxDxH mm	562 * 279 * 455
Dimensions box	WxDxH mm	620 * 330 * 510
Weight	Kg	10,0
Weight (gross)	Kg	11,5
Guarantee	Years	4

## Accessories

Manuel fuel pump	Included
Transportation cap	Included
Instruction manual 8 languages	NL/FR/DE/GB/IT/ES/PT/DK

## Features

**NO INSTALLATION:** This heater can be installed without wires and without exhaust pipes. This makes it a very convenient heating source.

**CLEAN COMBUSTION:** TOYOTOMI's state of the art Double Clean Chamber System maximizes fuel combustion and reduces unwanted emission gases to ultimate safety level.

**HIGH EFFICIENCY:** The TOYOTOMI heater has 99.99% heat efficiency with Far Infrared-ray and Infrared-ray heating.

**WICK LIFE EXTENDER:** Wick Life Extender is TOYOTOMI's original patented design. It helps maintain good wick performance and extends useful wick life.

**TRIPLE SAFETY EXTINGUISHER:** There are 3 extinguishing methods on the RC-32

1. By pushing emergency button.
2. Automatic shut-off is activated when the heater is bumped into, or in the event of a tip-over (earthquake safety device).
3. When the room temperature rise to certain level, the heater will automatically shut off by thermocouple. This is due to the relation between room temperature and CO<sub>2</sub> value in the room.

**REMOVABLE FUEL TANK:** The heater is provided with a removable fuel tank with a capacity of 4,5 liters, which will ensure a burning time of max. 13,5 hours.

**WICK STOP-MECHANISM:** The wick stop function facilitates the search for the right wick height, so that the heater is always set to the correct position and ensures clean combustion with CO<sub>2</sub> emissions below 50 ppm.

**MADE IN JAPAN:** Manufactured according to ISO 9001:2015 and ISO 14001:2015 standards in Japan, with a 4-year guarantee.
