Marketing Information

Model Name	Z6 ZERO-TURN RIDE-ON MOWER (KIT)
------------	----------------------------------

Category Bullets	The Z6 handles tight corners easily with on-the-spot turning. Equipped with the latest in digital technology and cruise control, the Z6 takes maneuverability to the next level with 3 customisable driving modes: Control, Standard and Sport.
------------------	---

PDP Short Description	EGO's Z6 Zero-turn Ride-on Mower is the world's first platform-compatible ZTR, powered by any combination of EGO 56V ARC Lithium™ batteries. Included in this kit is the industries fastest multi-port charger which can charge up to 6 batteries at the same time.
-----------------------	---

Long Description	<p>Delivering the equivalent power of a 22 horsepower petrol engine, with none of the emissions, the Z6 covers up to 2.5 acres on a single charge with six 12Ah batteries. You can tailor the combination of batteries exactly to match the size of your lawn, and to how you prefer to cut your grass – unlike any other battery-powered ZTR on the market.</p> <p>The industry's fastest charger fully charges 4 x 10Ah in just 2 hours, 4x faster than any of the competition, while the four independent brushless motors deliver the power and performance of petrol to get the job done. It reaches a top speed of 8MPH and will cover up to 2.5 acres on a single charge with six 12Ah batteries.</p> <p>The LCD screen is intuitive, allowing you to control the mower's speed, mode, and cutting speed, plus you can see exactly how much charge you have left.</p> <p>Choose between three driving modes. Standard mode which you can use for everyday tasks, Control which will protect your turf and is perfect for new zero-turn users, or Sport which is great for precision cuts around sharp turns. It also has Bluetooth connectivity so you can enable a remote key from your mobile, take full control of your mowing experience, monitor your battery, and download firmware updates to receive the latest features.</p> <p>There are 10 cutting height settings which range between 2.5 – 10cm. These are easily adjustable with one hand by using the ergonomic handles. You've got the choice to mulch, bag or side-discharge whilst mowing, so not only can you dial in to the perfect cut, but you can also do what you require with the clippings. (Bagging kit sold separately).</p> <p>The features don't end there – 32 high-intensity LED lights illuminate your view when conditions get a little more challenging, you can stay hydrated whilst working with a helpful drink holder which is</p>
------------------	--

designed for large tumblers, plus a storage compartment including a slot for your mobile phone – which you can also charge whilst driving via the useful USB port.

SUPPLIED COMPLETE AS: Inc. 1600W charger and mulching plug (CHV1600E, AMP4200)

Batteries not included. Minimum 15Ah required to function

Packaging Contains	1x Z6 Zero-Turn Ride-On Mower [ZT4200E-L] 1x 1600W Charger [CHV1600E] 1x Ride-On Mower Mulching Plug [AMP4200]
